

SERVICE LIST C&D - BEA PROMOTION 2020

We hereby inform you that from 13 July 2020, the promotional conditions below will apply to services in the White Areas (C&D Cluster).

CONDITIONS

The promotion will be valid for all orders sent by Operators to Open Fiber by **31 December 2020**.

Furthermore, the Operators' orders eligible for the promotion are exclusively those relating to the Real Estate Units and services that will be available for commercialisation according to the content present in Open Fiber's White Areas (C&D Cluster) DB coverage.

The promotion of the "***Fee***" component of the services involved will be valid as long as the single connection remains active (therefore also after the expiry of the promotion period) with the same original requesting Operator or, for the services that provide for it, until the first profile change.

This document lists only the items and services covered by the promotion. For all items and conditions not contained in this Newsletter, the provisions of the basic offer shown in the Service List C&D shall apply.

SERVICES

The promotion is valid on the following services:

- **P2P ACTIVE**

Table 1 shows the promotional prices of the Active P2P Service at 1Gbit/s and 10Gbit/s applied to the Initial Connection Fee and the Access Instalment.

P2P ACTIVE – BASIC SLA
